

CORRECTION CORPORATION OF AMERICA CCA WATER SYSTEM

ADAMS COUNTY, MS

Client: Adams County
Board of Supervisors
601-442-2431
Cost: \$1.2 Million
Completed: 2008

When Correction Corporation of America (CCA) decided to locate a 2,300 bed prison in eastern Adams County in 2007, it needed a significant amount of water for both fire-fighting requirements as well as for potable needs. The Adams

County Board of Supervisors selected JKS to perform the engineering design and construction management services associated with the CCA project which involved the installation of a 1,200 feet deep, 1,000 gallon per minutes well, controls and disinfection building, a 350,000 gallon tank and approximately one mile of 10" PVC water main. . The total construction cost of the project was funded through the CDBG Program. This system is operated by Adams County Water Association.
